

Cohoes Community Center

Thanks to the generosity of SEFCU, we are pleased to say that all Center employees will be paid in full for their final week of work. We realize that there are still many outstanding issues that will need to be resolved regarding the sudden closure of the Cohoes Community Center, but this is a positive first step as we continue to work with community and business leaders on plans to help the Center resume operation and once again serve the children and families of our city.
